Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Numerous calls were made over a 7-10 day period to discuss a possible examiner's amendment clarifying certain limitations - where the lining composition was applied, the conveyance, comprising inspection, excising, debris removal, and application means - traveling along the pipeline at each step.. However, the inventors were overseas and unable to agree to any changes. ON 8/4/2006 Mr Batzli explained the difficulties in obtaining client approval and requested an action on the claims as written. Since the claims as written are possible, they are being examined as written..
